International Law

Cases and Materials with Australian Perspectives

Donald R Rothwell, Australian National University

Stuart Kaye, University of Wollongong

Afshin Akhtar-Khavari, Queensland University of Technology

Ruth Davis, University of Wollongong

Imogen Saunders, Australian National University

Now in its third edition, *International Law: Cases and Materials with Australian Perspectives* continues to be an authoritative textbook on international law for Australian students. With a strong focus on Australian practice and interpretation, the text examines how international law is developed, implemented and interpreted within the international community and considers new and developing approaches within this field.

This edition has been comprehensively updated to address recent developments in international law. The curated selection of cases and materials provides a thorough coverage of core areas of the law and addresses a range of contemporary challenges, including climate change, human rights, nuclear proliferation and the South China Sea. A new chapter on international trade law is included to reflect the growing importance of this body of law in Australian practice. Guiding commentary by the authors provides a rigorous analysis of key principles and opportunities for readers to reflect on and test their understanding.

Written by a team of experts with substantial teaching and research experience in this field, *International Law: Cases and Materials with Australian Perspectives* is an essential resource for Australian law students.

KEY FEATURES

- Balanced treatment between international law and Australia's involvement within international law
- Australian examples used as a reference point to provide important context and relevance to help students understand the various legal points under discussion
- A range of well-chosen cases and materials with a good balance in number and extent of sources
- Substantially rewritten, refreshed and modified to reflect recent developments and practice with improved focus on substantive issues
- New chapter on International Trade

CONTENTS

Inside Lawyers' Ethics

Christine Parker, University of Melbourne

Adrian Evans, Monash University

The third edition of *Inside Lawyers' Ethics* offers an engaging and practical examination of the moral and ethical dilemmas that legal professionals may encounter in a rapidly changing professional environment. The text provides comprehensive coverage and analysis of general philosophical approaches to morality as well as the legal frameworks which govern ethical decision-making and practice.

This new edition has been thoroughly updated and provides in-depth coverage of the Australian Solicitors' Conduct Rules (ASCR) to enable readers to successfully understand, analyse and apply guiding ethical frameworks to practice. Case studies and discussion questions in each chapter provide practical examples from case law, legal practice and research to illustrate common challenges and explain how ethical and moral principles can be applied to a variety of common scenarios.

Written by leading academics in the field, this essential text equips readers with the skills to enact ethical behaviours and confidently confront common ethical challenges in their everyday practice.

KEY FEATURES

- Focus on the 'real world' of lawyering
- Rich historical and theoretical detail added to the regulatory models
- Translation of ASCR into workable scenarios which challenge the reader
- Use of four different ethical perspectives (responsible lawyering, adversarial advocacy, moral activism, and ethics of care)
- Raises contemporary and contentious issues in Australian society and politics with reference to the role of lawyers
- Substantially revised with new case study boxes, discussion question boxes, legislation boxes and breakout boxes

CONTENTS

- | | |
|--|--|
| 1. Introduction: values in practice | 7. Excessive adversarialism |
| 2. Alternatives to adversarial advocacy | 8. Conflicting loyalties |
| 3. The responsibility climate: professionalism and the regulation of lawyers' ethics | 9. Lawyers' fees and costs: billing and over-charging |

Understanding Sociological Theory for Educational Practices

Tania Ferfolja, University of Western Sydney

Criss Jones Diaz, University of Western Sydney

Jacqueline Ullman, University of Western Sydney

Understanding Sociological Theory for Educational Practices introduces readers to the contemporary classroom through the lens of sociological theory. By compelling readers to think critically and reflexively, this book helps future teachers create a welcoming and equitable learning environment for all students.

This edition has been updated to include the latest research and resources, including links to the Australian Professional Standards for Teachers (APST) to help readers connect the theory with their practice. Learning is supported through pedagogical features including key term definitions, and end-of-chapter reflection questions and recommended resources. A new instructor website features a curated suite of questions and links to informative videos.

Understanding Sociological Theory for Educational Practices is an essential resource that enables teachers to confidently navigate the topics of diversity, disadvantage, discrimination and marginalisation in a range of educational contexts.

KEY FEATURES

- Offers links to Australian Professional Standards for Teachers
- Includes a companion website with additional instructor resources
- Supports learning through pedagogical features including key terms, case studies, end-of-chapter reflection questions and recommended resources

CONTENTS

Success in Professional Experience

Building Relationships in Educational Settings

Michael Dyson, Federation University Australia

Margaret Plunkett, Federation University Australia

Kerryn McCluskey

Teaching placements can be a challenging experience for pre-service educators. The second edition of *Success in Professional Experience* facilitates the development of the fundamental knowledge, skills and competencies required to prepare for and strengthen confidence during placements, with a focus on students building relationships within their educational communities.

This edition has been fully revised and features two new chapters on assessment and planning for success in learning along with sample planning documents and lesson plan templates. In-chapter activities, reflections, case studies and links to the Australian Professional Standards for Teachers (APST) reinforce student understanding. Additional online resources are available on a comprehensive companion website.

Success in Professional Experience is an essential resource to support pre-service primary and secondary school teachers throughout the practical course components of their degree.

Remedies in Australian Private Law

Katy Barnett, University of Melbourne

Sirko Harder, University of Sussex

The second edition of *Remedies in Australian Private Law* offers readers a clear and detailed introduction to remedies and their functions under Australian law. Clearly structured, with a strong black-letter law focus, the text provides a complete treatment of remedies in common law, equity and statute and develops a framework for understanding the principles of private law remedies and their practical application.

This edition has been significantly revised and offers up-to-date coverage of case law and legislation, including the Australian Consumer Law. Building on the detailed treatment of remedies and their broad functions across a range of private law categories – including torts, contract, equity, trusts and property law – the new edition also offers expanded coverage of vindictory damages, debt, specific restitution and coercive remedies. Theoretical perspectives on issues such as equitable obligations, the fusion of common law and equity, the nature of reasonable fee awards and the concept of unjust enrichment are also discussed.

With its systematic and accessible approach, this text enables students and practitioners to develop a coherent understanding of remedial law and to analyse legal problems and identify appropriate remedial solutions.

Reinforced and Prestressed Concrete

Yew-Chaye Loo and Sanaul Huq Chowdhury

The third edition of *Reinforced and Prestressed Concrete* continues to be the most comprehensive text for engineering students, instructors and practising engineers. Theoretical and practical aspects of analysis and design are presented in a clear, easy-to-follow manner and are complemented by numerous illustrative and design examples to aid students' comprehension of complex concepts. The text is divided into two parts: the first addresses the analysis and design of reinforced concrete structures and the second covers topics in prestressed concrete.

This edition has been fully updated to reflect recent amendments and addenda to the Australian Standard for Concrete Structures AS 3600-2009 and allied standards. Two new chapters, covering T-beams, irregular-shaped sections and continuous beams, and strut-and-tie modelling have been added as discrete modules to enhance the progression of topics. Additional information is provided on fire resistance, detailing including cover, long-term deflection and design for torsion. An expanded collection of end-of-chapter tutorial problems consolidate student learning and develop problem-solving skills.

With its thorough coverage of fundamental concepts and abundance of practical examples, *Reinforced and Prestressed Concrete* remains an indispensable resource for students and engineers continuing their professional development.

International Environmental Law

Pierre-Marie Dupuy and Jorge E. Viñuales

International Environmental Law offers a concise, conceptually clear, and legally rigorous introduction to contemporary international environmental law and practice. The book covers all major environmental agreements, paying particular attention to their underlying structure, main legal provisions, and practical operation. It blends legal and policy analysis, making extensive reference to the jurisprudence and scholarship, and addressing the interconnections with other areas of international law, including human rights, humanitarian law, trade and foreign investment. The material is structured into four sections - foundations, substantive regulation, implementation, and influence on other areas of international law - which help the reader to navigate the different areas of international environmental law. Each chapter includes charts summarising the main components of the relevant legal frameworks and provides a detailed bibliography. Suitable for practicing and academic international lawyers who want an accessible, up-to-date introduction to contemporary international environmental law, as well as non-lawyers seeking a concise and clear understanding of the subject.

Acute Care Nursing

Edited by

Julia Gilbert, Federation University Australia

Elisabeth Coyne, Griffith University

As populations around the globe continue to grow, healthcare providers face increased demand for acute health services, including management of life-threatening emergencies, management of chronic conditions and routine health issues requiring immediate action. *Acute Care Nursing* provides an accessible and practical overview of the role of the nurse in acute medical and surgical settings in the Australian and New Zealand context.

Linking closely with the Australian 'Registered nurse standards for practice' and the New Zealand Competencies for registered nurses, this text equips students with foundational knowledge of the pathophysiology, treatment and legal and ethical issues associated with common acute conditions. Through the person-centred, collaborative care approach, students will also learn effective communication, decision-making and cultural competency skills that are essential for nurses in any practice context.

Each chapter is enriched with pedagogical features designed to solidify understanding and promote critical thinking, including 'Skills in Practice' case studies, reflections, key terms, review questions, research topics and further readings.

Offering students a relevant and contemporary understanding of the acute care context, *Acute Care Nursing* is an essential companion that can be taken from the classroom into practice.

Transnational Management

Text and Cases in Cross-Border Management

Christopher A. Bartlett, Harvard University

Paul W. Beamish, University of Western Ontario

Transnational Management provides an integrated conceptual framework to guide students and instructors through the challenges facing today's multinational enterprises. Through text narrative and cases, the authors skilfully examine the development of strategy, organisational capabilities, and management roles and responsibilities for operating in the global economy. The key concepts are developed in eight chapters that are supplemented by carefully selected practical case studies from world-leading case writers. All chapters have been revised and updated for this eighth edition to reflect the latest thinking in transnational management while retaining the book's strong integrated conceptual framework. Ten new cases have been added, and four others updated. A full range of online support materials are available, including detailed case teaching notes, almost 200 PowerPoint slides, and a test bank. Suitable for MBA, executive education and senior undergraduate students studying international management, international business or global strategy courses, *Transnational Management* offers a uniquely global perspective on the subject.

CLASSICAL STUDIES

An Independent Study Guide to Reading Latin

Peter V. Jones and Keith C. Sidwell

Accompanies the bestselling Latin course and is designed for students learning Latin on their own or with only limited access to a teacher. Contains notes on and translations of the Latin texts appearing in the *Text and Vocabulary* volume and answers to the exercises in the *Grammar and Exercises* volume.
